👤 Profile

I am a highly skilled Full-Stack Web Developer with a Computer Science degree from Karatina University, 6 months of intensive training in Web Development from Moringa School, and self-taught expertise in Node.js and Python with a focus on the Django framework. I am proficient in the use of various web development tools and technologies such as HTML, CSS, JavaScript, React, and Angular to design and build user-friendly and responsive websites and web applications. I have strong understanding of web development principles, server-side technologies, and database management. I got proven ability to deliver high-quality, responsive, and dynamic web solutions using the latest technologies, with a strong focus on performance and scalability. I also have strong debugging and problem-solving skills, ability to work independently, and a passion for staying up-to-date with the latest web development trends and technologies.

💼 Work experience

02/2022 – present
Nairobi, Kenya

IT Intern
Kenya Tourism Board under Public Service Commission

As an ICT intern at the Kenya Tourism Board, I am responsible for supporting the development, maintenance, and improvement of the organization's IT systems, as well as providing technical support to end users. I work closely with the IT team to ensure that the organization's IT systems are running smoothly and efficiently, and I get the opportunity to gain valuable experience in the field of ICT and tourism.

Key Responsibilities:
- Assist in the development, maintenance, and improvement of the organization's IT systems
- Provide technical support to end users, troubleshoot and resolve technical issues
- Assist in the maintenance of the organization's IT infrastructure, including servers, workstations, and networking equipment
- Assist in the maintenance of the organization's website and social media platforms
- Assist in the administration of the organization's email and collaboration systems
- Assist in the maintenance of the organization's databases and data backups
- Assist in the preparation of IT policies, procedures, and documentation

💼 Work experience

- Assist in the management of the organization's IT projects
- Any other duties as assigned by my supervisor

03/2022 – 11/2022
Nairobi, Kenya

Volunteer Technical Support (Web Development)
Moringa School

As a Volunteer Technical Support for the Web Development Boot-camp, I was responsible for providing technical support to students during the boot-camp program. I worked closely with the instructors and other volunteers to ensure that the students had the necessary resources and support to successfully complete the program.

Key Responsibilities:
- Provide technical support to students during the boot-camp program
- Assist students with troubleshooting and resolving technical issues related to web development
- Assist students with understanding and utilizing various web development tools and technologies such as HTML, CSS, JavaScript, Python, and frameworks such as React, Flask, Django, and Angular
- Assist students with debugging and problem-solving
- Other duties as assigned by the boot-camp support team

🎓 Education

07/2021 – 02/2022
Nairobi, Kenya

Web Development
Moringa School

As a full-stack web development student at Moringa School, I was part of an intensive and comprehensive program designed to equip the student with the skills and knowledge needed to become a proficient web developer. The program equipped me with a strong foundation in web development concepts, tools, and technologies, as well as the ability to apply the knowledge in real-world situations.

Key Responsibilities:
- Attend daily stand-ups and workshops on web development concepts, tools, and technologies
- Complete hands-on assignments and projects to apply my knowledge and skills
- Participate in pair programming and group projects to develop teamwork and collaboration skills
- Attend weekly check-ins with our mentors to receive feedback on our progress and identify areas for improvement
- Participate in code reviews to receive feedback on my code and improve my coding skills
- Utilize a variety of web development tools and technologies such as HTML, CSS, JavaScript, React, Angular, Python, Flask, Django, and PostgreSQL to design and build user-friendly and responsive websites and web applications.
- Participate in regular assessments and evaluations to track my progress

08/2013 – 12/2017
Karatina, Kenya

Computer Science | Bsc. Computer Science
Karatina University

As an undergraduate student pursuing a Bsc. in Computer Science at

🎓 Education

Karatina University, I was part of a comprehensive and challenging program that aims to provide a student with a solid foundation in computer science concepts, theories, and practices. The program is designed to equip the student with the knowledge and skills necessary to succeed in the field of computer science and to provide one with the opportunity to apply the knowledge and skills in real-world situations.

Key Responsibilities:
- Attend lectures and tutorials on computer science concepts, theories, and practices
- Complete assignments and projects to apply my knowledge and skills
- Participate in group projects and presentations to develop teamwork and collaboration skills
- Attend laboratory sessions to gain hands-on experience with computer science tools and technologies
- Participate in regular assessments and evaluations to track my progress
- Attend technical workshops, seminars and conferences to stay up-to-date with the latest developments in the field of computer science
